Along the Lincoln Highway
The Newsletter of the Iowa Lincoln Highway Association

Volume 8, Number 3 Autumn 2003

Friend, Can You Spare 37¢.

Iowa pride themselves on being good hosts whenever guests come over and as host for the 2006 national Lincoln Highway Association conference, the Iowa chapter is seeking feedback from all members on their preferences regarding the conference site.

Cedar Rapids is the host city, but the specific location of the June convention is not finalized. This is your opportunity to contribute to that decision.

Included in this newsletter is a brief survey we hope you will complete and mail to Iowa State Director Paul Walker.

The survey will be used to make decisions about lodging and how best to accommodate our out-of-town guests. Feel free to offer additional suggestions contributing to a successful conference.

The Iowa association wants to provide you with an entertaining, educational and fun conference—one with a few surprises and Lincoln Highway experiences you’ll not soon forget.

So sharpen that pencil, take 5 minutes, and please give us your comments.

Marshalltown Puts On a Show.

Witness the 150-year history of Marshalltown come alive as it is recreated in a unique sound and light show on Friday, September 26, at 8:30 p.m. and on Saturday, September 27, at 7:30 p.m. on the Marshall County Courthouse lawn. This event is a finale to Marshalltown’s Sesquicentennial celebration. The general public is invited to attend without charge. The presentation will last about an hour and a quarter.

Sound and Light Shows have been presented at the Louvre in Paris, the Colosseum in Rome, and the Pyramids in Egypt. Similar shows took place at the United States Capitol and at Independence Hall in Philadelphia during the Bicentennial Year.

"Marshalltown Milestones" presents the history of the city through the eyes of the old Courthouse. The Courthouse lawn will become an outdoor theater, with the Courthouse as its screen. The façade of the building will be brilliantly illuminated. (Mitown Milestones, Continued on page 6)
PULLING AT THIN THREADS.

It was after midnight on a warm July night and I had settled into my nightly routine at the radio station in Cedar Rapids. The government aircraft that we track had all set down (for the night) and the commercial airlines, both passenger and freight, were few and far between.

Our 12 radio receivers, huge antennas and two remote miles, thousands of miles away were filled with atmospheric hiss and thunderstorm crashes, but there were no aircraft requiring attention. It seemed logical to a seasoned radio operator that if there is hiss and lightning crashes on 12 radios, I should turn on a 13th for entertainment. My plan was to tune across the 75-meter band ("ten-ten only") band. I had a ready fix for a real customer to call on those other 12 radios—after all, I was at work. At about 2 a.m., I brought up a spare shortwave receiver to tune the ham bands looking for interesting conversation to keep me awake as I sipped my second cup of Joe.

There he was! I had heard him before—"Mac," WZMX in Detroit, Michigan, chatting with a couple of other night owls on 3,875 megahertz. He had a good signal, and I began to listen to Mac's railroad adventures. After about a half-hour, Mac confided in the other hams that his sailing club had a rather nice clubhouse at Groves Point, Michigan (just north of Detroit) on Lake St. Clair, the little lake that connects mighty Lake Huron and Erie.

It seems his club facility is a converted boat house. Approximately 8' X 10' and previously holding a single yacht, it has a full length catwalk along the peak of the roof for viewing nearby sailboat races. Mac further explained that the widow of the President of the Packard Motor Company donated the building to the sailing club many years ago. The gift came with the stipulation that the club never build or include a bar at the facility for serving alcohol.

This rich Packard president's name was Henry B. Joy. And, oh by the way, he was also an amateur radio operator ( Ham ). Even in the middle of the night I heard "Henry B. Joy" voice a bell. Gosh, he was the first president of the Lincoln Highway Association.

My ears perked up, waiting for more juicy tidbits, but Mac had to work the following morning and signed off. The rest of the story would have to wait for another day.

It was still the middle of the night. I was at work and as the ready, but no activity was heard on our 12 radios. So this July night I was being paid just to sit, listen and be ready. I felt like the Maytag repairman.

Then thoughts passed as I mulled the ham radio connection to Henry Joy. In addition to being a professional radio operator, I have been a licensed ham radio operator since 1953 and my wife, Bev, since 1954, totaling 50 years as hams! (Stop that sticking!) I wondered if the Internet would yield more information on this new perspective on the Joy legend.

I got online, and searched and searched, but the ham radio connection seemed to be a dead end. However, I discovered that Henry B. Joy's father was James F. Joy, described as a prominent attorney and railroad entrepreneur. He was president of several railroads and on the boards of more.

Pulling on this thread, I was interested in his involvement with the Chicago and Rock Island Railroad, which formed the original connecting link for uninterrupted railroad traffic between the Atlantic and Pacific Oceans.

In his capacity as a railroad president, James F. Joy was the first to entice and hire the young Abraham Lincoln in legal work for the railroads. In this legal capacity, James F. Joy helped start the career of Abraham Lincoln, and the relationship lasted about a decade. James F. Joy's admiration and respect for the young attorney must have made quite an impression on the son, Henry B. For it positively affected his decision in head the highway association bearing Lincoln's name.

Let's follow this thread a little further.

(Tracking Joy. Continued on page 6)
Ramblings Along the Lincoln Highway.

Minutes of the Summer 2003 Iowa ILH Meeting
Louise and Lucille Hilt Tamula Public Library
22 July 2003
Submitted by Lu Anne, Acting Secretary.

Approximately 31 members and guests attended the July 12 Board meeting. Coffee, juice and Tama Bakery donuts were served by our host, Ron Cory.

Mike Kelly called the meeting to order at 9:00am. Minutes of the April 12 meeting were approved as published in the Summer 2003 newsletter.

Membership report by Cecil Stewart indicated that between 10-11 names have been dropped from the roster with only a few having rejoined. Cecil also mentioned that at the Ft. Wayne Annual Conference, the national membership chairman reported that Iowa has the most members. Cecil offered to do membership reports by counties in Iowa for the council. Currently, Green County leads with most members.

State Director’s Report
Paul Walker suggested that each Council keep an ongoing log of county activities throughout the year which will make assembling the State Activity Report for the annual conference an easier task.

Paul reported Jess Peterson accepted the Treasurer position for the ILH.

Iowa steps for the Lincoln Highway Anniversary 2003 Coast to Coast Tour include lunch in Mt. Vernon on Aug, 22, stops at Youngville and Preston’s Gas Station in Belle Plaine. Overnight is in Marshalltown/August 23 possible coffee break in Ogden, lunch at Cronk’s in Denison, afternoon break in Woodbine. There are 50 entries for the tour with vehicles from 1934 to 2004 vintages. Bob and Joyce Ausberger have room in their motor home for anyone wishing to make the trip. The Nebraska Iowa Lincoln Highway Festival Days is happening that weekend. Cedar Rapids news coverage offered if there was a local participant. Mike Kelly is local and making the entire trip. Press release for this tour distributed to Board and council for local publications.

Lincoln Highway Trading Post is producing a 2004 Calendar with pictures of ILH sites. State event dates can be noted on the calendar; please send to Paul.

State Center will host the January 2004 Board Meeting.

The 2006 Annual Conference is confirmed for Cedar Rapids. Paul wants the entire Lincoln Highway across the state marked with painted telephone poles.

Concern voiced about approval to paint the county poles. Paul will start the process by asking power companies for written permission.

Paul also wants to put together an all-Iowa calendar for sale at the ’06 conference. Also an Iowa postcard, and an Iowa LH Hall of Fame. Conference goal is 200 attendees.

A committee is visiting Coe College on August 8 as a possible venue.

October 11 General Membership meeting in Boone to be held in Boone Co. Museum. Want to take a group photo of all Council members. Need 100% attendance of these people.

Paul proposes John Fitzgerald conduct a pole-painting clinic. Group agreed to keep the business meeting to one hour (no council reports) to allow sufficient time for clinic and tour sites in Boone Co.

Agenda Item Discussions

National Park Service is drafting an environmental impact report in the Fall. ILHA should think about a special Board meeting to hear the report.

ILHA Affiliate Program Proposal presented by Paul Walker. Having groups such as the Tama Lincoln Highway Assn., Youngville Highway History Assn., Colo Reed/Niland Corner, Auto groups, etc. associated with the ILHA would show support for a variety of organizations when presenting issues/concerns/requests to government groups for action. ILHA Members asked to consider mutual benefits (what we offer, what they offer) for this proposed program.

National Conference Updates 12 ILHA members were present for the Ft. Wayne conference. Concurrent educational sessions were held which is always an issue as attendees have to choose and therefore miss out on other sessions.

Motion made and passed to accept the offer from the Iowa DOT commuters for present all their September 16 meeting (8:30am) in Ames. Charlie Kuester to draft a 15-20 minute presentation and submit to Mike Kelly and the Board for review. Board members, County Councils urged to attend. Presentation to include such items as an update on ILHA projects, our goals for road preservation,

(Ramblings, Continued on page 4)
(Ramblings. Continued from page 3)

our response to NPS. support we'd like from
IDOT. Bob Stinson offered to attend and intro-
duce Charlie. Need meeting location.

Brett Ford asked for input/suggestions for the LH interpretive site at Hitchcock Nature Center which includes the Honey Creek grade. County purchased the property and added it to the Park. A camp is being built to be partially done by Labor Day. Jeff Benson to send Brett existing list of themes set for Iowa and assigned to various sites, including copy of an existing blueprint that was done for Grand Junction. Paul Walker asked Brett for photos/ stories for next newsletter.

Miscellaneous topics

- Consideration was given to a standing LH float for use in state parades.
- Mass distribution of LH press releases to publications as opposed to individual states/Consulate managing them.
- Lynell Henry distributed postcards of the old L-Range Motel in Toledo. New ownership bought new name of “Budget Inn.” Old neon sign is gone, but Lynell saved the 28 wrought iron door ornaments. Motel is for sale.

County Consul Reports

Clinton: Recruiting continues with help of Paul to find replacement for Elmer Ketelesen. Attended an Illinois LH meeting in Rochelle and there is some talk around a joint IA/IL meeting. LH signs up on west edge of Clinton, which the city did do on its own. Cedar: No report.
Linne: Lunch plans in place for hosting of Cross-Country tour. Van and Bob Becker to meet and greet. An original concrete marker located in Mechanicville; owner asking upwards of $1,000. Benton: Kelly reports President of Youngville Highway History Assn. passed away. A windbreak (trees) is planned for Youngville with some of the memorial contributions. Summer hours are 11am-1:30pm on Tuesdays and Thursdays for lunch; Friday 3pm-6pm with pie and ice cream (through end of Farmers’ Market season); Saturday 8am-1am coffee/rolls. Looking for LH members to help staff on Saturdays and Sundays fro 1-4pm. Mike to send out a sign-up sheet.

Belle Plaine C of C has asked to join ILHA; will include LH sites on their tours. Historical society trying to get funds for a museum. Kelly and Walker to contact Cross-Country tour organizers as Ron Preston would like to get the city involved for the stop at Preston’s.

Tama: 3 new brewers to be hung with 2 more planned bringing total to 19. Cabin work at King Tower progressing. Almost 3000 in attendance at the May 17/18 festival LH Bridge Festival, including Assembly representing the ILHA. Bridge maintenance is in its 17th year.

Marshall: Cross-Country tour is invited to State Center evening of Aug 22 for the farmer’s market, bluegrass band and beer tent. Grant money received to assist with renovations. World Heritage Center of Iowa to include the Iowa Barn Foundation, and LH Interpretive Site. NPS wants to include State Center in its rural community presentation.

Story: College Seniors Program (Ames heri-
tage) starts in Fall. LH exhibit to open in No-
vember. Margaret willing to buy any Ames phone books of city directories from the 1910’s and 1920’s. Larry Formey showed pictures of the progress being made at Niland’s Corner. The restored restaurant will be an operating one. Paul will invite Cross-Country Tour to stop.

Boone: General membership meeting to be held October 11 in the Boone Co. Museum.

Greene: Grand Junction buildings on the main street through town soon to be razed. Saving these buildings in any town takes money to bring them up to code. We all feel the loss when historic buildings are torn down.

Carroll: Attended the Ft. Wayne annual con-
cference; visited the exhibit in the Two Bend be-
fore it was dismantled. The Carroll Today weekly newspaper has asked for and will print articles about the LH for as long as we wish. Norma asked for information on W. Coss, first state consul from Clinton. Suggested she search on Google.

Crawford: No report

Harrison: Elaine had pictures of the Woodbine brick street progress at the Ft. Wayne annual conference. Norma visited and drove down the first completed section. Reports it’s “smooth.”

Pottawattamie: As reported in agenda items. Meeting adjourned at 12:30pm. Attendees met at the King Tower Restaurant for lunch, and later walked to the remaining cabin to see the restoration progress.

Already?
The Proposed I-80 Museum.

Coming soon to the world's largest truck stop: A museum of antique trucks that will tell the story of America's love affair with the highway.

The museum will be next door to the Iowa 80 Truckstop on Interstate Highway 80 near Walcott (Iowa). Delia Moon Meier, daughter of former Iowa 80 owner Bill Moon, said the first phase of the museum will open soon to showcase her family's collection of antique trucks and transportation memorabilia.

"This will be a work in progress," said Meier. "In five years, we hope the museum will be a destination of its own." Iowa's interstate highway system doesn't have many attractions near the road, Meier said, so weary travelers can pull off and spend an hour or two learning history or indulging in nostalgia.

Standard Oil built and opened the truck stop in 1964, before the nearby interstate was complete.

Bill Moon assumed management of the truck stop in September 1965. He purchased it in 1984, and the family built Iowa 80 Truckstop into the world's largest. Moon and his wife, Carolyn, who remains active in the business, practically raised their three children there.

The truck stop now spreads over 200 acres and is a small city in itself with a restaurant, dentist office, barbershop and movie theater.

Bill Moon collected antique trucks, and his family kept collecting after his death in 1992.

Delia Meier's husband, David Meier, said in the first phase the museum will house 27 of the 100 trucks in the family's collection. A 1916 Mack AC truck, believed to be the first Mack truck built, will stay in its current place in the lobby of Iowa 80 Group's 26,000-square-foot corporate headquarters north of the truck stop.

Delia Meier said the museum will show trucks everyone remembers, "not just the one-of-a-kinds. We want a little bit of everything, not a lot of one thing. My father always had it in his mind that he wanted to build a museum to tell the story of transportation in America."

Retracted from the Muscatine Journal, 28 December 2002

The President's Corner
by Mike Kelly, ILHA President

Just a few thoughts on the 50th Anniversary Tour as my return from the twenty-one day trip and the newsletter deadlines coincided.

I shot approximately 23 hours of video, which will be edited into a 1-1/2 to 2 hour program. Included are a number of Lincoln Highway sites that have been preserved or altered where preservation efforts are improving.

On the other hand, many remnants of the original Lincoln Highway are slowly disappearing. My traveling companions for the 6500-mile trek, Bill Karo and Bob Lelinger, were always willing to go around the block to get a better shot of a crumbling motor court or gas station. This was no easy task as the schedule was tight. After a leisurely hour of hanging out in Times Square, some of us stuck to the original route to meet lunch appointments and other scheduled events. Visits with "Lincoln Highway Characters" along the route also put stress on the schedule but they were truly icing on the cake.

The Iowa section was one of the tour highlights for everyone. The hospitality was legendary. The ongoing joke was "you'd better eat those cookies because it will be at least 15 minutes before you get any more." A number of Iowa map packs were purchased and from my observations these were the best received supplemental guides on the route. As far as the easiest state to navigate, the hands-down winner was Illinois. It was the only state that has successfully satisfied the overwhelming need to mark the entire route. 75 years ago hard surfaced roads finally paved the way for expanded commercial development along the route. Today we need to point the way in that role that J.R. Manning of Germantown, Wisconsin, J.R. has chosen Iowa as his chapter affiliation because of our outstanding activity level and excellent newsletter. J.R.'s 1929 Model A was the senior vehicle on the trip and successfully made the Wisconsin to New York to San Francisc trip despite some bad inner tubes and mending Hankow worths. I'll have more stories and pictures to share at the Boone meeting.

-Mike
The Internet claims James F. gave Lincoln his start as a lawyer working for the railroads. Back in 1856, the railroad (the Chicago and Rock Island Railroad) was engaged in a lawsuit with the steamship company that owned the Effie Aton Steamboat. It seems the riverboat, on its maiden voyage in 1856, collided with the railroad’s first bridge across the Mississippi River at Rock Island/Davenport. The hot sun-heats of the boat set the wood timber rail bridge on fire. The bridge, as well as the steamboat Effie Aton, was destroyed in the resulting fire. The lawsuit pitted steamboat company against railroad and helped launch Mr. Lincoln’s career as an attorney for the bridge/railroad. The rest, as they say, is history.

In Davenport, Iowa, along River Drive upsteam from the Government Bridge and near the Wonder Bread Bakery, stands a stone monument where the railroad bridge first touched Iowa soil. A replica of the original bridge pier plaque is on this site.

The inscription on the monument indicates that it was the first railroad bridge across the Mississippi River. The original marker plaque is located in the Rock Island Arsenal Military Museum on Arsenal Island along with the bell salvaged from the Effie Aton wreckage.

The marker stands today at the corner of the property that 80 years ago belonged to my grandfather, Carl A. Becker. In the 1920’s, Grandfather Becker used this property as the location of his now long-gone coal delivery service. From my grandfather’s coal business to Abraham Lincoln’s railroad client, to Henry Joy’s father and the amateur radio hobby. I have a connection to the early beginnings of the Lincoln Highway Association.

Amazing where you can go when you start pulling on threads in the middle of the night.

Halloween is Coming... Say "BOOne!"

Welcome everyone to the Fall 2003 meeting of the Iowa LHA on Saturday, October 11th! Meet at the Boone County Historical Center downtown on the old Lincoln Highway at 602 Story—look for the LH marker. Parking is available in the ramp north of the Center and across the street south in the video store lot; only the north spaces running east and west please. Use the Center's southeast door which will be marked. The meeting begins at 9:30, but come early for coffee and conversation. The fee for the afternoon bus tour is $5.00 per rider—noon meal will be on your own.

There are many places to eat in the downtown area and south of downtown—a list will be provided. Please respond if you will attend the meeting and tour by October 5 to John Fitzsimmons (515-432-3697) or Joe Moore (515-432-6174 or bjmoore@mailstation.com). If you are planning to ride the scenic railroad or visit Mannie Eisenhower Birthplace, or spend more time exploring the LH in Boone, here are some motel numbers: Amerihost (1-800-432-8168; Super 8 515-432-8890 or 800-800-8000; American Inn 515-432-4122.
